

## **DIC 4-Chair's Message-Miriam Morrow**

Hello! I'm Miriam Morrow known as 'MM'. I'm the chairperson of DIC4. I would like to make a statement for those who registered or will register for upcoming workshops. It is critical to understand the use of technology. This is why I am making this vlog in order for you to enjoy these workshops. I highly recommend you use a desktop computer or laptop when you enter into one of these workshops because if you use an ipad or phone, you may not have the control to enlarge the presenter. Most presenters will be using slides on keynote and powerpoint, or videos. When this happens, you may not be able to see the presenter on the ipad or phone. This is why I suggest you to use a desktop or laptop so that you can have full access to information! Enjoy your workshops! Bye!
